## JMC 150 Shear

Designed as a low-cost answer to metal cleaning, an ordinary 13 amp socket and suitable bench are all you need to put the JMC Model 150 shear through its paces.

# The JMC 150 Shear

**Small, efficient,  
convenient, cost-  
effective**

## VERSATILE

The 150 Shear is ideal for all your lighter metal shearing, yet is rugged and powerful enough to tackle gun metal valves, bath taps, cable and other Non Ferrous cleaning operations. The machine is small enough to be moved easily around the yard.

## EASY TO OPERATE

Opening and closing of the jaws is controlled from a movable foot pedal. The cutting blades return immediately to the open position once pressure on the foot pedal is released - thereby increasing operator safety. Single cuts, nibbling and cracking are all easy with the fine control available. Both hands remain free to manipulate the material being cut, and simple stroke adjustment facilitates material cropping.

## COMPLETE

The 150 shear comes complete with operational and safety manual, cable and plug. It also carries a full 12 month parts warranty.

## WORLDWIDE PEDIGREE

JMC Recycling Systems Ltd was formed from J.McIntyre Machinery Ltd in 2003 to manufacture the McIntyre range of Metal Recycling equipment. McIntyre machines have been sold worldwide since 1975, and many of the company's original units are still in constant daily use. The 150 shear forms part of a range of machines which have been built to last, and therefore to earn you money for many years.

## Technical Data

### 150 Shear

Blade Length	150mm, 6"
Blade Opening Tip to Tip	105mm
Maximum Shear Force	23 tonnes
Weight	150kg (with oil)
Motor size	1ph, 1.5kw
Speed -	
Blades ¼ open	Up to 20 strokes per minute
Blades ½ open	Up to 12 strokes per minute
Blades fully open	Up to 9 strokes per minute
Length	660mm
Width	520mm
Height	620mm
Control	Foot Pedal
Hydraulic Oil Capacity	25 litres
Hydraulic Oil Type	ISO 46

## Cutting Capacity

### Mild Steel 43A

25mm, 1" Dia

Round bar

20mm

Square bar

200 8" shear

500 20" shear

4000 16" shear

407 16" shear
